# NANCY NORDSTROM

## Goal Strategist and Empowerment Speaker

---

### Nancy Nordstrom and You

Nancy's fun and easy style can be applied as a keynote, seminar, or workshop. Her audiences leave with applicable ideas and the tools they need to move forward. This is due to her warm and insightful connection with the audience, one that allows them to apply her insights to their own lives so that improvement and self-motivation can take place. She works to help others find the power contained within to change the world without. Focus is on: identifying and defining goals, creating a successful attitude, planning and taking action, and maintaining motivation. Better communication skills, improved team-building, and a more positive approach are just a few of the benefits received from hearing her speak. All of which encourage the realization of dreams.
